## Disclaimer

Prior to reviewing this report, please see the following quote from an ARL published report<sup>1</sup> as the same principles apply for the tables and graphs presented in this report: *“The tables presented in this publication are not indicative of performance and outcomes and should not be used as measures of library quality. In comparing any individual library to ARL medians or to other ARL members, one must be careful to make such comparisons within the context of differing institutional and local goals and characteristics.”*

## Overview

In 2015, at the University of Saskatchewan (U of S), the [University Library Assessment Program](#) was released reflecting progress toward the achievement of the Library's vision, mission, and core strategies in the [University Library Strategic Plan](#) and demonstrating the library's commitment to evidence-based decision-making. Aligned with the library's strategic planning process, the University Library's program of assessment is linked to the three broad purposes of the University's Framework for Assessment ([A Framework for Assessment: Beyond Systematic Program Review](#)), namely: *quality improvement, quality assurance, and accountability*. Four elements currently make up the assessment program: *library data and statistics, library surveys, key performance indicators and benchmarking, and other assessment related activities*.

On an annual basis, the University Library submits data to the Association of Research Libraries (ARL) along with all other ARL member libraries. This includes data on library collections and expenditures; library salary expenditures; overall library expenditures; library personnel; library use, facilities, and services; and doctor's degrees, faculty, and enrolment. ARL uses this data to publish annual statistics for a number of indicators, percentages and ratios, and the library investment index, which provides a wealth of information for all member libraries.

The U of S is part of a select group of 15 research-intensive universities in Canada known as the [U15 Group of Canadian Research Universities](#). The annual publication of ARL statistics allows the University Library to track progress over time and benchmark with our U15 peer institutions<sup>2</sup>. The current report represents the University Library's analysis of ARL Statistics 2015-16<sup>3</sup> summarizing the results for the U of S versus U15 peers.

This report corresponds to the broad purposes of *quality improvement* (as many of the statistics are measures tied to the core strategies in the University Library Strategic Plan) and *accountability* (as this report is a means of communicating results to the University community and general public demonstrating openness and transparency). This report also demonstrates the University Library's commitment to move beyond submitting annual library statistics to analyzing and using published results in order to determine trends and benchmark to our U15 peers.

## ARL Background<sup>4</sup>

The Association of Research Libraries (ARL) is a non-profit organization consisting of 124 research libraries in the US and Canada consisting of the largest research libraries in North America. This includes 114 university libraries and 10 public, governmental, and non-profit research libraries. Although ARL libraries represent a small subset of libraries in North America, they account for a large portion of academic library resources (e.g. assets, budget, and number of users served).

ARL Member Libraries	University Libraries	Public, Governmental, and Non-profit Research Libraries	Total
US	99	9	108
Canada	15	1	16
Total	114	10	124

## ARL Indicators<sup>5</sup>

ARL releases annual statistics as part of a series of publications describing the collections, staffing, expenditures, and service activities of its 124 libraries. Statistics are available for the following indicators for Canadian ARL libraries including U15 research intensive universities except for Dalhousie and Montreal (not ARL members).

### Library Collections and Expenditures

Titles held; volumes in library; electronic books; one-time resource purchases; ongoing resource purchases; collection support; total expenditures for library materials

### Library Salary Expenditures

Salaries and wages for professional staff, support staff, and student assistants; total salaries and wages; fringe benefits (\$ and designated %)

### Overall Library Expenditures

Total expenditures for library materials; total salaries and wages; other operating expenditures; total library expenditures; expenditures from external sources (bibliographic utilities, consortia/networks, etc.)

### Library Personnel

Professional staff; support staff; student assistants; total staff

### Library Use, Facilities, and Services

Library presentations to groups; participants in group presentations; reference transactions; initial circulations; full-text article requests; regular searches; federated searches; total items loaned/borrowed; annual gate count

### Doctor's Degrees, Faculty, and Enrollment

Doctor's degrees awarded; doctor's degree fields; instructional faculty; total students (full-time); total students (part-time); graduate students (full-time); graduate students (part-time)

<sup>5</sup> Results not shown for the following four ARL indicators due to lack of U of S and/or U15 peer data and/or consistency issues with data collected: fringe benefits (designated %); expenditures from external sources (bibliographic utilities, consortia/networks, etc.); regular searches; federated searches

## ARL Percentages and Ratios

Using data from the indicators listed on the previous page, ARL calculates and publishes the following percentages and ratios to help provide a picture of ARL university libraries.

- Professional Staff as a percent of Total Staff
- Support Staff as a percent of Total Staff
- Student Assistant Staff as a percent of Total Staff
- Ratio of Professional to Support Staff (excluding Student Assistant Staff)
- Ratio of Items Loaned to Items Borrowed
- Total Library Materials Expenditures as a percent of Total Library Expenditures
- Salary and Wages Expenditures as a percent of Total Library Expenditures
- Other Operating Expenditures as a percent of Total Library Expenditures
- Library Expenditures per Faculty
- Library Expenditures per Full-Time Student
- Library Expenditures per Full-Time Graduate Student
- Library Expenditures per Full-Time User
- Library Expenditures per User
- Library Expenditures per PhD Awarded
- Library Staff per PhD Awarded
- Professional Library Staff per PhD Awarded

## ARL Library Investment Index

ARL also releases a ranking based on the Library Investment Index which is calculated based on the following four variables:

- 1) Total Library Expenditures
- 2) Total Library Materials Expenditures
- 3) Salaries & Wages Professional Staff
- 4) Professional + Support Staff (FTE)

## Results: ARL Indicators

The following table summarizes the 2015-16 University of Saskatchewan (U of S) ARL results compared to 2014-15 (including % change) and to the U15 average (2015-16). The overall U of S ranking among U15 peers is also shown for each indicator. The graphs in Appendix A illustrate U of S results compared to the U15 average for each ARL indicator from 2011-12 to 2015-16. The graphs in Appendix B show U of S results/ranking among U15 peers for 2014-15 and 2015-16 for each ARL indicator.

## Results: ARL Percentages and Ratios (2015-16 graphs)

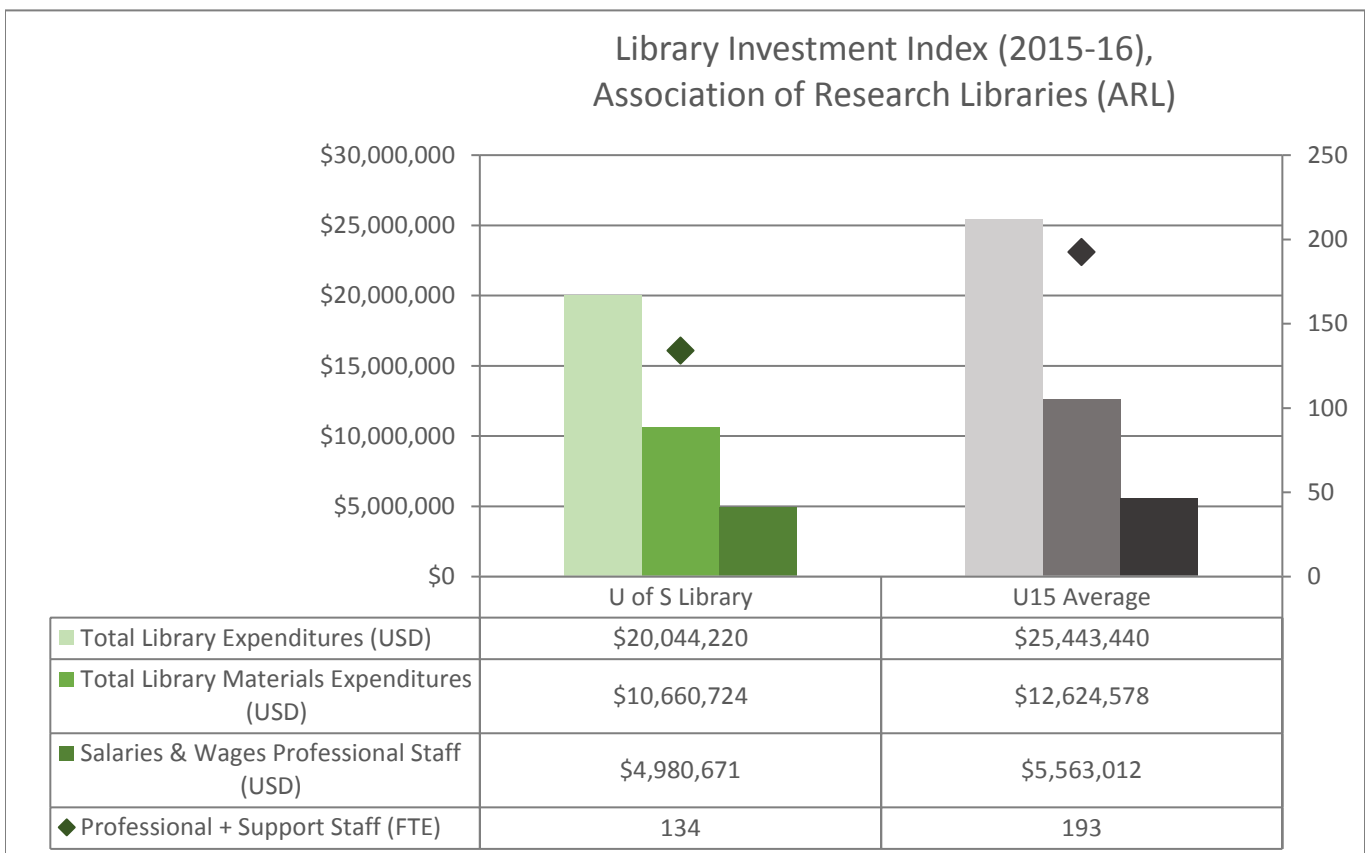

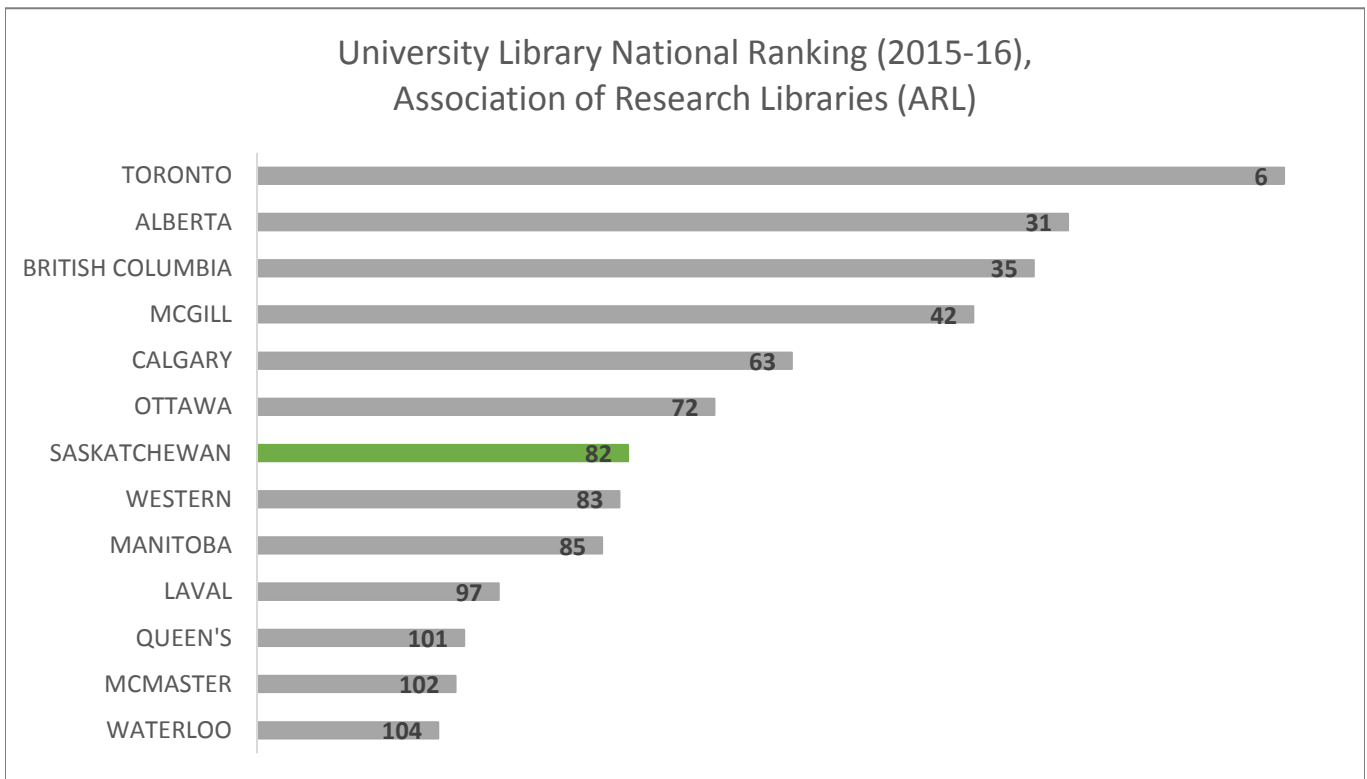

The following graphs illustrate 2015-16 ARL percentages and ratios for the U of S compared to the U15 average.

## Results: ARL Library Investment Index

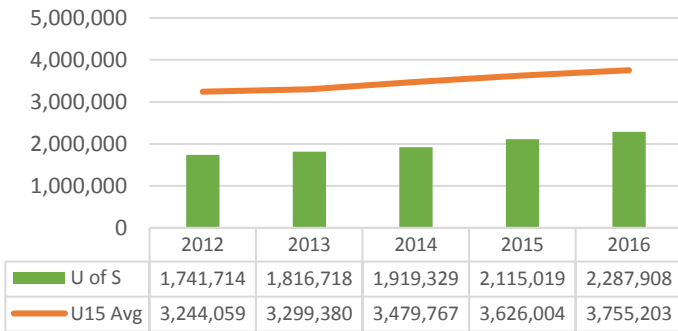

The first graph depicts the ARL Library Investment Index ranking for thirteen U15 institutions in 2015-16 (except Dalhousie and Montreal). The second graph shows the values for each of the four variables used to calculate the Library Investment Index at the U of S compared to the average of thirteen U15 peer institutions in 2015-16.
